HOW TO DISPOSE OF LATEX PAINT

LATEX PAINT MUST BE DRIED OUT OR SOLIDIFIED PRIOR TO DISPOSAL. USE CAT-LITTER, SAND, OR A PAINT HARDENER PRODUCT.

ONCE THE PAINT IS SOLIDIFIED, REMOVE THE LIDS, (THE LIDS MUST BE OFF SO THE CREW/TECHNICIAN CAN SEE THAT THERE IS NO LIQUID IN THE CAN), AND SET THE CAN AT THE CURBSIDE FOR COLLECTION WITH YOUR REGULAR REFUSE ON ANY REGULAR PICK UP DAY; OR, TAKE THE CANS TO THE RECYCLING CENTER DURING REGULAR BUSINESS HOURS.

THANK YOU.
