

*Native Plant Suppliers in Michigan 2024

While this may not be an all-inclusive list, these are some of the suppliers I am most familiar with. – Pete Sutliff

Wildtype Nursery –

900 North Every Road, Mason, MI

(517) 244-1140 wildtypeplants.com

Most of our herbaceous plants at Beebe were from here.

Cold Stream Farms

8585 N. Stephens Rd., Free Soil, MI 49411

(231) 464-5809 coldstreamfarm.net

Ship bareroot trees to your home. Very inexpensive way to start growing trees with a high survival rate as long as you don't wait too long after receipt to plant them.

At Beebe the Highbush Cranberry (*Viburnum trilobum*) and American Hazelnut (*Corylus americana*) trees were ordered from here. A total of eight trees, 3' tall for \$148 including tax and shipping

Steinkopf & Sons

934 Wheeler Road, Snover, MI 48472

(810) 672-9459

Steinkopfandsonswholesale@gmail.com

*Not an exclusive native plant grower but I have bought many trees/shrubs from them over the years at Eastern Market and they are always good quality.

Our Dogwood (*Cornus florida*) and River Birch (*Betula nigra*) planted at Beebe are both from here.

East Michigan Native Plants, LLC

Durand, MI

Does pop-up sales in the Detroit metro area every spring with a great selection of native plants, vines and grasses. Many of my native plants in my home garden are from them.

Nature and Nurture Seeds

114 8th Street, Ann Arbor, MI 48103

(734) 929-0802 natureandnurtureseeds.com

*While they are not exclusively native growers Nature & Nurture is included here because they offer a native flower seed mix called Good Bugs Blend and many other organic and native seeds including Paw Paws. They also sell organic vegetable seeds like Detroit Dark Beets and Dragon Carrots.

For each seed type they provide information about How to Grow, How to Harvest, and How to Save Seeds

Designs by Nature, LLC

Laingsburg, MI

(517) 230-2923 designsbynaturellc.com

Lots of good information about native plants. They also do occasional pop-up sales in the metro area or can ship plants to you. You can buy native plant kits from them.
